Notes

- It is recommended that S/C/SC/H Series smoke alarm be tested weekly
- Units produce a temporal 3 audible alarm for smoke or heat
- Units produce a temporal 4 audible alarm for CO
- Utilizing DUALINK®, if S/C/SC/H is tandem interconnected with CO alarms or combination smoke/CO alarms and CO devices go into alarm, CO alarms and smoke alarm will sound CO warning.
- Utilizing DUALINK®, if S/C/SC/H alarm annunciates, all smoke alarms, CO alarms or combination smoke/CO alarms tandem interconnected will sound smoke alarm warning.
- When both smoke and CO conditions are present, smoke condition will have priority and alarm will sound smoke annunciation.
